[Cagliari, Italy](#)

<https://www.linkedin.com/in/francesco-sanna/>

Experienced web developer with a strong background in front-end technologies such as JavaScript and Angular, complemented by solid back-end skills in Node.js and MongoDB. Over the years, I've delivered high-impact solutions across both customer-facing and internal platforms, working with international clients in complex industries like Insurance and Banking. I specialize in designing and implementing custom integrations, solving technical challenges, and enabling teams through clear communication and hands-on guidance.

## Skills

HTML • CSS • JavaScript • Angular • Git • Technical Training • MongoDB • Node.js

## Experience

- **Stackhouse** - Sep.2024 - Today
  - TPL - Developer - Leading and managing technical projects, developing with React and other technologies, and coordinating teams to deliver high-quality solutions.
- **Vivocha** - Jul.2012 - Sep.2024
  - Professional Services - Managed customer projects from initial communication through the development of custom integrations with third-party platforms.
  - Tech Trainer - Delivered technical and non-technical training for international customers, from basic concepts to advanced architectural overviews.
  - Web Developer - Developed with HTML, JavaScript, and CSS.
  - Customer Success Manager - Suggested customized technical solutions to improve client productivity.
  - 2nd Level Customer Support - Provided advanced support for complex issues and customer questions.
- **Reilabs** - Sep.2011 - Jul.2012
  - Software Developer - Full-stack web development tasks.
  - University Internship - Built a web application for an Italian company to analyze website performance; the project became part of my thesis on web analytics technologies.

## Education

Bachelor's Degree in Computer Science | University of Cagliari | 2011
