PROFILE

Developer since 2010, specializing in web technologies (Angular, React, Node.js, MongoDB) and experienced in project leadership, integrations, training, and performance tuning. Passionate about clean code and mentoring.

At Stackhouse (Spindox) I lead engineering squads while staying hands-on in architecture, code review, and delivery, including ServiceNow (SAM, ITSM, integrations, widgets, flows). Previously at Vivocha (12+ years) I delivered enterprise integrations and international technical training for banking and insurance clients.

SKILLS

Team leadership • Agile

delivery • ServiceNow • HTML • CSS • JavaScript • TypeScript • Angular • React • Node.js • React Native / Expo • MongoDB • REST APIs • Git & CI/CD • Technical training

EXPERIENCE

Engineering Manager & Technical Lead

Stackhouse – Spindox · Sep 2024 – Present

Full Stack Developer · Technical Project Leader (contract)

- Lead engineering squads (typically 3–6 people) on internal and external engagements.
- Own roadmaps, sprint planning, retrospectives, and backlog prioritization.
- Mentor through code reviews and standards focused on maintainability and reuse.
- Hands-on ServiceNow delivery (SAM, ITSM, REST integrations, widgets, business rules, flows); reusable libraries and solution design with stakeholders.
- Partner with customers on requirements and technical trade-offs.
- Hands-on in React, TypeScript, and API integrations alongside platform work.

Professional Services Lead & Technical Trainer

Vivocha · Jul 2012 – Sep 2024

- 12+ years in client-facing delivery across banking and insurance (from developer to PS leadership).
- Custom platform integrations from discovery through go-live.
- International workshops on JavaScript SDKs and REST APIs.
- Customer-facing HTML/CSS/JavaScript components and workflow consulting.
- 2nd-level support and SLA management.

Developer & University Intern

Reilabs · 2010 – 2012

- Web analytics product: full-stack features, REST feeds, KPI dashboards.
- Internship work informed B.Sc. thesis on web analytics technologies.

SELECTED PROJECTS

Nomad Ideator and lead developer. Mobile-first offline travel companion (TypeScript, Expo, Hono, MongoDB). MVP feature-complete with CI and i18n. nomadtravel.guru

Platform engineering (Stackhouse) ServiceNow and web delivery with shared integration libraries.

Enterprise integrations (Vivocha) Custom third-party integrations for banking and insurance clients.

EDUCATION

B.Sc. Computer Science, University of Cagliari (2011)

W3Schools React certification, Certified React Developer Professional Level
